## BIOGRAPHY FOR THE GALLERY

### “OLIVER LABS”

Oliver Labs is a mathematician at Saarland University; his research is focused on algorithmic algebraic geometry and singularity theory as well as their applications. Oliver Labs, for years, has been dealing, in particular, with the construction and visualization of singular algebraic surfaces, among others, also films and pictures for a broad audience. He has already developed several computer programs on this subject, together with co-authors, e.g. Surfex and Surfer.
